

THE LEBANESE SAJERIA

HEATING INSTRUCTIONS

Preheat the oven to 160°C.

Do not remove the foil from the containers.

Place all containers labeled "serve warm" in the preheated oven for about 17 minutes.

All containers labeled "serve cold" should be served cold.

The numbers indicate which topping belongs to which dish.

Serve the dishes in nice bowls or serving plates.

Sprinkle the toppings over the warm dishes as soon as they come out of the oven.

Finally, also sprinkle the toppings over the cold dishes.

Make it extra delicious: a drizzle of olive oil over the dips!
